Versa-Lite Portable LED Lead-Light

240V / 12V 92 LEDs

Australian Made

Versa-Lite Portable LED Range

12V & 240V Versa-Lite Portable LED Lead-Light

The Versa-Lite range of fluorescent lights is a market leader in the industrial, automotive and 4WD markets. With a reputation for long life in arduous environments the Versa-Lite is a popular light.

Burn Brite has now combined the benefits of the Versa-Lite body and the latest in LED technology. After significant R&D Burn Brite has developed a groundbreaking range of Australian-made LED portable lights.

Features

- Daylight white light – no blue tinge
- A light output and beam spread similar to a Versa-Lite fluorescent
- The 240V model has a plug pack power supply that provides a lead voltage of 12V for added safety
- Drawing only 0.4 Amp current, the 12V model is perfect for camping
- Robust LED light source
- High output, long life LEDs
- Strong, clear, impact resistant outer case
- Impact absorbing and anti-roll 'finned' handle
- Oil and petrol resistant
- Maintenance free
- Compact slim profile – 402mm long
- Removeable hanging hook
- Optional MagnaMount to magnetically attach Versa-Lite to metal surfaces for hands-free use

Applications Include

- Industrial contractors
- Industrial workshops
- Automotive workshops
- Home handymen
- 4WD users
- Campers
- Mobile repair units
